

Work involving WQS in the state of Washington:

-EarthJustice FOIA (Human Health criteria)

-Net pens litigation

-Temperature work (Columbia River and others)

What is happening with the temperature TMDL litigation?

Any update on Oregon temperature criteria BiOp RPA – Identifying cold water refugia?

(EPA...check in with Palmer/ Labiosa on this prior to meeting??)

-PPA – Check in on the following agreed upon activities:

- Rec Criteria development
- DO / Sediment Criteria development
- Triennial review / 5 year plan

-Human Health Criteria implementation

-Spokane Mayor discussion

-Spokane taskforce

-Water Quality Assessment Listing methodology for HHC/tissue (ask Matt if he wants to discuss)

-Total dissolved gas (Chad) EPA... talk with John Palmer prior to meeting to find out if any new push/
update on Nez Perce letter?? Heard anything on the topic of moving to 120% TDG.

-Tribal TAS and updated WQS (talk to Maja)

- Possible SSC / UAA Progress Update on UAA work in Washington (Cheryl/Elaine)

-Variance webinars for R10 states (starting this summer)

NWEA litigation meeting:

-NWEA petition on toxics (Human health and aquatic life)

-Potential revisions to the Natural Conditions Criteria update (hinges on what happens in the
settlement)
